HARIS ARSHAD, PMP®

Technical Project Manager | Agile & Software Delivery Lead

Islamabad, Pakistan | +92 309-5597954 | harisarshad235@gmail.com | LinkedIn Profile | harisarshad.site

PROFESSIONAL SUMMARY

PMP®-certified Technical Project Manager with 6+ years of technical delivery experience, including 3+ years directing cross-functional software engineering, cloud platform, and SaaS initiatives across Fixed Price (FP) and Time & Materials (T&M) models. Proven track record leading distributed squads (engineering, QA, DevOps) across multi-project enterprise portfolios valued up to PKR 700M+. Adept at establishing Agile/Scrum delivery governance, aligning complex software architectures with client SOWs, and accelerating release cadences through disciplined backlog hygiene, CI/CD workflows, and dependency mapping. Deep background bridging technical PMO governance with modern SDLC execution for Tier-1 telecom and enterprise clients.

CORE COMPETENCIES & TECHNICAL SKILLS

- **Delivery Governance & Methodologies:** Full-Lifecycle SDLC Management, Agile (Scrum, Kanban, Scaled Agile), Sprint Planning, Backlog Refinement, Capacity Planning & Velocity Tracking, RAID Logs, Change Request (CR) Governance, Scope & Budget Baseline Control, SOW & SLA Management, Client UAT Sign-off, Fixed Price (FP) & Time-and-Materials (T&M) Delivery.
- **Platforms, Tooling & Cloud Ecosystem:** Jira Software (Advanced Roadmaps, JQL, Automations), Confluence, Azure DevOps, Git, GitHub, Postman, AWS/Azure Cloud Environments, ClickUp, MS Project, Asana, Trello, Primavera P6.
- **Technical Acumen & Release Engineering:** Cloud & API Delivery Workflows, Microservices Architecture Familiarity, SQL & Relational Databases, Power BI Dashboard Architecture, CI/CD Deployment Workflows, Release Notes & Post-Mortems, Cloudflare Serverless Ecosystem (Pages, D1, R2).

KEY ACHIEVEMENTS

- **Enterprise Delivery:** Orchestrated the end-to-end SDLC of the Thunder Energy Analytics platform for Telenor, adapting scope across parallel sprints to launch a production-grade analytics engine on schedule within targeted sprint velocity.
- **Financial Optimization:** Captured PKR 103M+ in cost savings (22.5% below baseline budget) on a nationwide PKR 459M Track & Trace deployment by implementing active EVM cost-variance tracking and tightening contractor milestone payouts.
- **Process Automation & Tooling:** Engineered and deployed an edge-hosted internal sprint-tracking alternative (Apex Track) on Next.js and Cloudflare serverless architecture, eliminating recurring per-seat SaaS licensing costs across 20+ cross-functional team members.
- **Executive Visibility:** Automated executive portfolio reporting by designing unified Power BI dashboards, eliminating 90% of manual reporting overhead across 150+ operational deployment sites.

PROFESSIONAL EXPERIENCE

Sigma Digital Solutions | **Technical Project Manager** (Jul 2026 – Present • Islamabad, Pakistan)

- Direct concurrent, full-cycle SaaS and web application engineering sprints for three client platforms (Taggy, APC, Premier Online) by coordinating cross-functional engineering, QA, and DevOps squads across distributed environments.
- Authored comprehensive product epics, user stories, and acceptance criteria in Jira, maintaining 0% scope creep and eliminating requirement misalignment during client sprint sign-offs.
- Implemented structured Kanban/Scrum delivery boards with explicit WIP limits and milestone burndown targets, reducing cross-team communication latency and cycle time by 35%.
- Standardized project governance frameworks, CI/CD release runbooks, release notes, and client-facing UAT criteria, achieving 100% on-time client acceptance across all planned production rollouts.

PROFESSIONAL EXPERIENCE (CONTINUED)

AJCL Pvt Ltd | **Project Planning and Control Engineer (PMO)** (May 2024 – Apr 2026 • Islamabad, Pakistan)

- Delivered the CDA Smart Parking Digitization IoT and software platform from discovery to deployment, coordinating hardware sensor ingestion, mobile payment APIs, and real-time administrative dashboards.
- Mitigated critical delivery blockers across a PKR 700M+ portfolio covering 150+ operational sites by implementing Critical Path Method (CPM) scheduling and cross-functional dependency tracking, slashing schedule slippage by 80%.
- Controlled portfolio burn rates and engineering allocations across external vendors, regulatory authorities, and internal teams, holding actual expenditures within 3% of baseline budget.
- Authored Integrated Master Schedules (IMS) in MS Project and enforced formal change governance, increasing cross-functional contract SLA compliance from 62% to 94%.
- Governed high-priority sprint backlogs and proactive RAID registries, slashing delivery defect escape rates while maintaining consistent sprint milestone adherence.

SOFTOO Pvt Ltd | **Associate Project Manager – Software Delivery** (Aug 2023 – Mar 2024 • Islamabad, Pakistan)

- Led Agile sprint execution for cross-functional teams of 30+ software engineers and QA analysts, successfully delivering mission-critical enterprise platforms for Tier-1 clients including Telenor and First Abu Dhabi Bank (FAB).
- Optimized Scrum ceremonies (daily standups, sprint planning, and retrospectives) and cleared cross-system architectural blockers, reducing sprint rollover work by 30% and stabilizing team velocity across successive quarters.
- Governed client communication through automated sprint burnup charts and bi-weekly milestone demos, achieving transparent client buy-in and zero unbudgeted scope additions.

SOFTOO Pvt Ltd | **Junior Project Coordinator – Software Systems** (Feb 2023 – Aug 2023 • Islamabad, Pakistan)

- Consolidated multi-project documentation, RAID logs, and backlog matrices across active web engineering initiatives, reducing milestone reporting discrepancies by 40%.
- Facilitated recurring synchronization workshops between business analysts and technical leads, accelerating user story readiness and grooming lead times prior to sprint kickoff.

Al Rehman Enterprises & Co | **Site Engineer** (Oct 2019 – Dec 2021 • Rawalpindi, Pakistan)

- Monitored project baseline schedules, contractor milestones, and critical-path resource allocations using Primavera P6 and MS Project, securing zero unapproved schedule variances across multi-disciplinary operations.
- Resolved technical and execution conflicts between consultant engineers and site contractors, mitigating downtime and maintaining milestone compliance.

EDUCATION

Master of Science (MS) in Project Management | Bahria University Islamabad | 2022 – 2023

Bachelor of Science (BS) in Electrical Engineering | COMSATS University Islamabad | 2015 – 2019

CERTIFICATIONS & LICENSES

- **Project Management Professional (PMP®)** – Project Management Institute (PMI)
- **Registered Professional Engineer (PE)** – Pakistan Engineering Council (PEC)
- **Microsoft Power BI Certification** – Lahore University of Management Sciences (LUMS)
